

DARREL ERUREH

Software Developer | Cybersecurity | Full-Stack JavaScript

Akowonjo, Lagos, Nigeria | +234 901 704 9686

erurehdarrel@gmail.com

darrelbuilds.com.ng | github.com/TechByDarrel

PROFESSIONAL SUMMARY

Software developer with hands-on experience building full-stack web and mobile applications using JavaScript, React, Node.js, Express, NestJS, and SQL/PostgreSQL, with a strong focus on cybersecurity. Holds Google and Cisco cybersecurity certificates and built PhishGuard, a tool for spotting suspicious URLs. Uses AI-assisted coding tools responsibly, reviewing and testing all generated code. Seeking software engineering or cybersecurity roles where well-tested, security-minded work matters.

CORE SKILLS

Web Development: HTML, CSS, JavaScript, React, Node.js, Express.js, NestJS, SQL, PostgreSQL

Tools & Deployment: Git/GitHub, VS Code, Android Studio, npm, Vercel, Render, GitHub Pages, domain/DNS management

APIs & Databases: REST API integration, PostgreSQL, SQL, database modeling, authentication and forms

AI-Assisted Development: Regular use of AI coding tools (e.g. ChatGPT) to generate, debug, and refactor code; reviews and tests all AI-assisted code before use

Development Practices: Requirements gathering, testing and debugging, code review, version control with Git/GitHub, independent problem solving

Cybersecurity: Cybersecurity fundamentals, threat and attack awareness, phishing detection, web-security fundamentals, online safety

EXPERIENCE

Founder / Independent Developer — Darrel Builds

Lagos, Nigeria

- Built and deployed multiple web and mobile projects from planning and research through testing and launch.
- Turned project requirements into organized tasks and clear implementation steps.
- Debugged and tested applications, and documented fixes and project decisions.
- Gathered feedback from users to understand their needs and improve products.

StockLite — Mobile App for Small Businesses

Independent Project

- Built a working Android app to help small businesses track products, sales, inventory, expenses, and debts.
- Interviewed potential small-business users to define requirements, then tested and refined the app into a functional Android APK.

Co-op Lend — Nomba Hackathon

Backend / Database Contributor

- Worked with a team on a fintech app covering members, loans, accounts, transactions, and ledger records.
- Designed database models, implemented features, and used Git and GitHub to coordinate and communicate changes.

PROJECTS

- Opportunity Board: full-stack web app with user authentication, saved opportunities, admin tools, and PostgreSQL.
- PhishGuard: cybersecurity web app that helps identify potentially suspicious and phishing URLs.
- Darrel Builds Website: personally designed, developed, and maintain my portfolio site (darrelbuilds.com.ng).
- Unit Converter and Rock Paper Scissors: interactive JavaScript apps, well suited to beginner project-based lessons.

CERTIFICATIONS

Foundations of Cybersecurity, Course Certificate — Google (via Coursera)

October 2026

Full-Stack Development, Certificate of Completion — Mimo

March 2026

Introduction to Cybersecurity, Certificate of Completion — Cisco Networking Academy

December 2025

EDUCATION

Secondary Education — Access Universal College, Akowonjo, Lagos

Graduated 2024
